

there are lots of good looking and nice
young men in Texas perhaps near
by you that you may like as well as
well or better than you do, yours.

Fatter as you always have called
and call always's call him the same
if you choose to do so. I expect you
would get tired of talking to me
in a short time and wish you
was back in Texas again. You know
I will always believe you to be
true as long as you do not change from
your present ways, I have got 3 of your
photos that the picture man gave me
after he sent your's to you but they
are not like you your self because I
have seen both and I certainly know
I am right. have you wrote to Coy
raily, or not He met me on the streets
the other day and begin giving me a-
bout a dream and I did not what
to think of it so I denied the charge.
